

# Box&Display

SAI Box & Display is the ideal product for print businesses looking to profit from display and packaging product offerings. Box & Display includes hundreds of ready-to-use three-dimensional designs for folding carton, corrugated cardboard and sandwich material to simplify structural design of free-standing and POP-displays as well as boxes.

## THE EASIEST WAY TO GET STARTED WITH POP BOX & DISPLAY CREATION

- Easily create point-of-purchase displays and boxes
- Includes a comprehensive, ready-to-use library of display and box templates
- Works great with all wide-format RIP Software

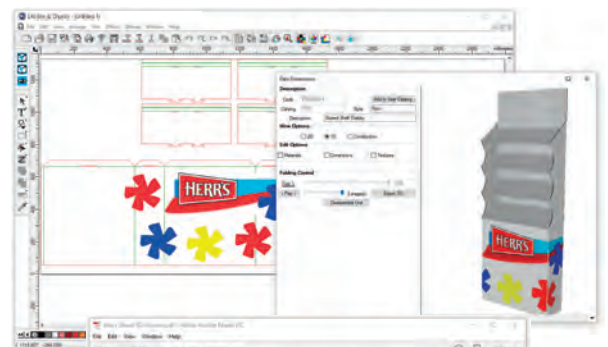

## FAST, EASY DESIGN

- Select from a library of ready-to-use display and box templates
- Re-purpose the easy-to-adjust templates in seconds
- Including popular ECMA and FEFCO box templates

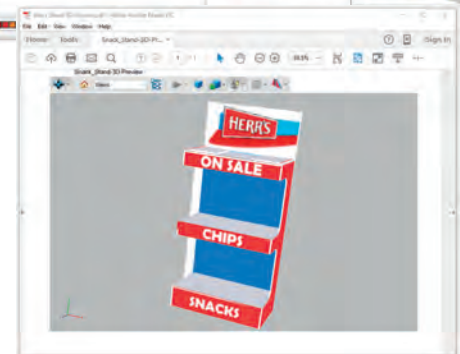

## ANIMATED 3D FOLDING VIEW

- View your designs from all sides in full 3D
- Animate the folding elements separately or together
- Catch mistakes before going to production

## SEND AS 3D PDF TO CUSTOMERS FOR REVIEW

- Export your design to an interactive 3D PDF
- View in any PDF-viewer (with 3D support)
- Allows full 3D rotation of package/box
