

FLEXI

THE LEADING SOFTWARE FOR SIGNMAKING

FlexiPRINT

HP BASIC Edition
Included with the HP L330 & L310

Very easy all-in-one print software

ESSENTIAL FEATURES

Native PDF RIP Engine

RIP and print PDFs faster and at a higher quality because Flexi doesn't need to convert PDF files before printing. Flexi handles PDF transparencies and layers with ease, even from the latest Adobe® applications. Get multiple jobs done quicker by RIPping as many files simultaneously as your computer can handle.

HP Integrated media library tool

Take full advantage of the new HP Latex printer capabilities thanks to Flexi's close integration with HP's online Media Library. View and download the latest media and print modes directly to your printer, which auto-synchronize with Flexi to get you up and running quickly.

Manual & automated job nesting

Flexi's automated Job Nesting optimizes your device and media usage by grouping multiple print jobs into one job before printing. Take total control using Flexi's manual layout tool to quickly nest multiple print jobs or multiple pages, copies, tiles or separations of the same job.

TOP FEATURES

- Highest level HP certification
- Automatic media synchronization
- Fast job preview
- Full free-form job tiling
- Cloud Window tools and HP videos
- Manual & automated nesting
- Full margin, bleed and crop marks
- PANTONE® spot color matching
- Print from any application
- Free companion mobile app
- Full color management workflow

Certified for
HP Latex 300 series
Production Printers

Free Mobile App

The companion mobile app gives you on-the-go access to your recent job list, production information, and job trends using your iPhone or Android device. The app links directly with Flexi and displays at-a-glance information about all jobs produced and reports monthly totals and averages for area and number of jobs produced. This information helps you determine hard costs to more accurately price your jobs.

HP WallArt

Get new profit potential by producing stunning, high-margin wallcoverings from the HP Wallart Solution website and FlexiPRINT. The integrated JDF workflow and WallArt dashboard in FlexiPRINT dramatically simplify your production of WallArt jobs on your HP Latex printer.

SAi Cloud tools & HP videos

The SAi Cloud Window offers you useful web-based tools including FlexiQuote for pricing sign jobs, online job storage, ICC profile download and Job Reports displaying real-time information about the amount of jobs and area produced. The Cloud Window gives you immediate access to SAi's Support page, the User Forum, HP Support videos, training materials and documentation and links directly to ready-made vehicle wrap templates, pre-defined signs, and logo, font and clipart libraries.

Print Wizard

New to wide-format printing? Get a jump-start using Flexi's unique Print Wizard which steps you through the process of creating print jobs for the first time. Reduce a new employee's training time and mistakes by using the wizard's step-by-step process to choose proper job settings and printer selections to create perfect prints with no prior training.
