SAi Launches Flexi MUTCD Collection

Complete sign collection for traffic sign creation and printing

Salt Lake City, Utah, USA – SA International (SAi), the leading provider of software solutions for the signmaking, digital printing, textile and CNC machining industries, has today announced the launch of the SAi Flexi MUTCD Collection for traffic signage creation and printing.

SAi Flexi MUTCD is the most comprehensive Traffic Asset Collection available, providing users with the graphic assets needed to create roadway signs that conform to government and industry mandated sign standards.

Available through a digital download, this digital collection includes regulatory signs, warning signs, temporary traffic control signs, recreational and cultural area signs, pedestrian, school signs and more.

Most importantly, the collection is fully compatible with your SAi Flexi software. The files come in a native Flexi (.FS) file format so they are easily editable and can be sent into production with just a few clicks.

Additional features in the collection include:

- Complete FHWA Series 2000 Edition Font Collection
- Complete Clearview Series Font Collection
- Bézier curves
- All typefaces conform to FHWA specifications
- Sign colors conform to FHWA specifications
- Artwork layers

The SAi Flexi MUTCD Collection is now available through SAi in North America for \$1,950. To purchase the collection, contact the North American sales department directly at na-info@thinksai.com or 800.229.9066.

About SA International (SAi)

Headquartered in Salt Lake City, Utah, USA, SA International (SAi) is recognized as the global leader in providing software solutions for the signmaking, digital printing, textile and CNC machining industries – from design to production. SAI's Flexi family of software products rank as the world's number one software for signmaking and digital printing, outselling all competitors combined. Flexi is found on more wide-format printers than any other software. In addition, the company is one of the leaders in the CNC machining and router markets with its EnRoute CAD/CAM software.

SAi has a large and loyal network of resellers around the world, and has over 250,000 customers in more than 150 countries. SAI enjoys strong OEM relationships with industry leading manufacturers. In addition to its USA headquarters, SAI has offices in Brussels, Belgium; São Paulo, Brazil; Shanghai and Hong Kong, China; Pune, India; Tel Aviv, Israel and Tokyo, Japan.
