5 August 2021

SAi opens new office in Florida

Company growth continues through challenging times

Sarasota, Florida, USA – SA International (SAi), the leading provider of software solutions for the signmaking, digital printing, textile and CNC machining industries, has opened a new office in Sarasota, Florida. Several employees of SAi have relocated to Florida and will be working out of that office, including Dan Purjes, the company's Chairman and majority owner.

Dan Purjes said, "SAi was the first software company in the wide-format printing industry to offer design and RIP products on a subscription basis. During the pandemic of 2020, SAi saw its business grow significantly, both in revenue and profits, and in the first half of 2021, SAi has seen an even more substantial growth in its business. Our expansion into Florida is a natural extension of that growth into one of the fastest growing states in the country."

Dan Purjes, Chairman and majority owner of SAi

"Sign and print businesses recognize the exceptional value of our low-cost, full-featured monthly subscriptions coupled with free support, which is why we were able to grow our business during these challenging times," said Don Feagan, SAi President and CEO.

SAi expects this growth to continue with the new office opening in Sarasota, with other expansion coming soon.

"With senior staff and key board members located together in Florida, we can respond more quickly to changes in the market and further develop plans for new innovations and strategies," said Purjes. "You can expect to see many exciting things from SAi in the future."

About SA International (SAi)

Headquartered in Salt Lake City, Utah, USA, SA International (SAi) is recognized as the global leader in providing software solutions for the signmaking, digital printing, textile and CNC machining industries – from design to production. SAi's Flexi family of software products rank as the world's number one software for signmaking and digital printing, outselling all competitors combined. Flexi is found on more wide-format printers than any other software. In addition, the company is one of the leaders in the CNC machining and router markets with its EnRoute CAD/CAM software.

SAi has a large and loyal network of resellers around the world, and has over 250,000 customers in more than 150 countries. SAi enjoys strong OEM relationships with industry leading manufacturers. In addition to its USA headquarters in Utah, SAi has offices in Sarasota, Florida; Brussels, Belgium; São Paulo, Brazil; Shanghai and Hong Kong, China; Pune, India; Tel Aviv, Israel and Tokyo, Japan.
