# Flexi®
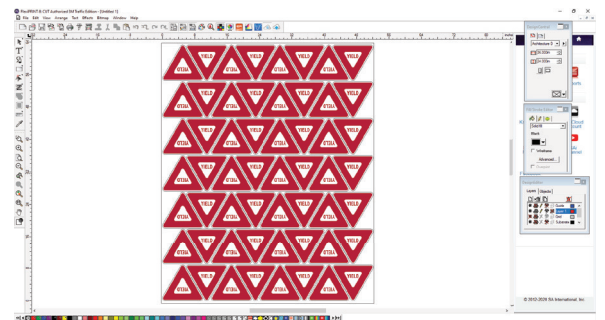

SAi's FlexiPRINT&CUT Authorized 3M Traffic Edition is the total solution for creating traffic signage. This product has everything a wide-format print business needs for easy traffic sign print production. In addition to versatile nesting and tiling features, the software system also includes ASTM Regulated Traffic Colors and spot color matching, guaranteeing you'll have precision color with every print. This is a complete design application that makes traffic sign design and print easy and accurate.
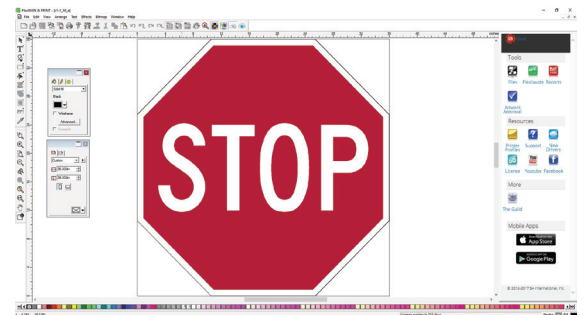

## PRODUCTION FEATURES

• Color match printing as part of 3M's MCS warranty

• Drives two wide-format printers simultaneously

• Works with all MUTCD templates and fonts

• Quickly print wide-format jobs from one application

• Fast 64 bit RIP handles large and complex files with ease

• Quickly print, print-and-cut, and direct-to-vinyl cut  wide-format jobs from one application

• Scale, crop, tile and color correct in seconds right from within Production Manager

• Save the most media with automatic or manual nesting of jobs per sheeting manufacturer's recommendation

• Automate common job preparation steps with job presets

• Match 3M defined ASTM spot colors for traffic signage

• Exact print on screen viewing before printing ensures accuracy

## DESIGN FEATURES

• Complete suite of bitmap, vector, text and effects tools

• Much easier and faster to use than other design software for wide-format job prep

• Easily design direct-to-vinyl signs with multiple colors, text and vector graphics

• Add one or more contour cut paths to graphics in seconds

• Quickly create a variable-data print run with the auto-serialization feature
